This Report is not a guarantee, valuation or appraisal. The Report contains only the characteristics of the diamond described herein after it has been graded, tested, examined and analyzed by GIA Gem Trade Laboratory under ICA supervision, and/or has been inspected using the techniques and equipment available to GIA Gem Trade Laboratory at the time of the examination.

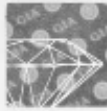

Specialized lighting, including UV, infrared, and computerized light leakage and binocular microscope, master color comparison diamonds, standardized viewing environment and light source, electronic color balance, synthetic diamond screening device, high intensity short wave fluorescence mapping system, short wave ultraviolet transmission detection system, optical measuring device, master laser scanning device, Proportionscope® ultrasonic length, millimeter gauge, and ancillary instruments as necessary. Red symbols denote internal characteristics (inclusions). Green or black symbols denote external characteristics (blemishes). Diagram is an approximate representation of the diamond, and symbols show relative type, position, and approximate size of clarity characteristics. All clarity characteristics may not be shown. Details of blemishes are not shown. The recipient of this Report may wish to consult a credentialed jeweler or Gemologist about the importance and interrelationship of cut, color, clarity and carat weight.
