This Report is not a guarantee, valuation or appraisal. The Report contains only the characteristics of the diamond described herein after it has been graded, tested, examined and analyzed by GIA Gem Trade Laboratory under 10x magnification, and/or has been recorded using the techniques and equipment available to GIA Gem Trade Laboratory at the time of the examination and/or at the time of being described, including fully controlled master lamps and binocular microscope, fiber optic computer diamonds, standardized viewing environment and light source, electronic card holder, synthetic diamond screening device, high intensity short wave fluorescence imaging system, short wave ultraviolet transmission detection system, optical measuring device, micro laser measuring device, Proportionalizer™, alternate lamp, millimeter gauge and auxiliary instruments as necessary. Red symbols denote internal characteristics (inclusions). Green or black symbols denote external characteristics (blemishes). Diagrams in an approximate representation of the diamond, and symbols shown indicate type, position, and approximate size of clarity characteristics. All clarity characteristics may not be shown. Details of inclusions are not shown. The recipient of this Report may wish to consult a certified Jeweler or Gemologist about the importance and measurements of cut, color, clarity and carat weight.
